M. DHANUSH

Hyderabad, India
+91 7842591623 | dhanush7842@gmail.com | linkedin.com/in/mdhanush-engineer | github.com/dhanush7842-developer | Portfolio

SUMMARY

Motivated **AI & ML** undergraduate with hands-on experience in machine learning, full-stack development, and AI-powered data analytics through internships and job simulations. Skilled in **Python, Java, Flask, React,** and data analysis with strong problem-solving and teamwork abilities. Passionate about building AI-driven applications and continuously improving technical skills through projects, hackathons, and practical learning.

EDUCATION

Anurag University **Expected 2028**
B.Tech in Artificial Intelligence & Machine Learning - CGPA: **7.89 / 10** Hyderabad, India

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, HTML, CSS
Frontend: React, Angular, Bootstrap, jQuery
Backend: Spring Boot, Hibernate, Flask, REST APIs
AI/ML: Machine Learning, NLP, NumPy, Pandas, Scikit-learn
Databases: MySQL, MongoDB
Tools & Concepts: Git, VS Code, Data Structures and Algorithms, OOP
Soft Skills: Leadership, Teamwork, Time Management, Problem Solving

EXPERIENCE & INTERNSHIPS

Kodbud — Machine Learning Intern **Mar 2026 – Apr 2026**
Remote | **[Certificate]**

- Completed a 4-week structured internship program gaining hands-on exposure to Machine Learning tasks.
- Contributed to **predictive modeling** and applied ML algorithms to analyze data patterns effectively.

EduSkills (AICTE) — Java Full Stack Developer Virtual Intern **Jan 2026 – Mar 2026**
Remote | **[Certificate]**

- Completed a comprehensive 10-week program mastering full-stack web application development.
- Designed responsive web interfaces using HTML, CSS, JavaScript, jQuery, and Bootstrap.
- Developed enterprise-level backend architectures utilizing **Core/Advanced Java, Spring Boot**, and **Hibernate ORM**.
- Implemented persistent data storage solutions with MySQL and managed source code via Git.

Tata Group (Forage) — GenAI Data Analytics Job Simulation **May 2026**
Remote | **[Certificate]**

- Utilized GenAI tools for exploratory data analysis (EDA) and predictive modeling for the Tata iQ team.
- Contributed to the development of an AI-driven collections strategy based on data insights.

PROJECTS

AI-Based Medical Diagnosis Assistant — [Live Demo] | [GitHub]
Python, Machine Learning, NLP

- Developed an **AI-based chatbot** integrating NLP techniques to assist users with basic medical queries by understanding symptoms and providing condition-based responses.

DisasterShield — AI Disaster Intelligence System — [Live Demo] | [GitHub]
Python, Flask, HTML/CSS

- Built an AI-powered web application using **Flask** for the backend and interactive frontend interfaces to deliver real-time disaster predictions based on data pattern analysis.

Expense Management — [Live Demo] | [GitHub]
Java, Spring Boot, React, MySQL

- Full-stack expense tracking application with secure authentication, CRUD operations, and a dashboard for managing personal finances.

Gaming Store (Angular) — [Live Demo] | [GitHub]
Angular, TypeScript, HTML/CSS

- Gaming storefront built with **Angular** — browse games, view details, and explore a responsive UI designed for a modern store experience.

CERTIFICATIONS & ACHIEVEMENTS

Certifications:

- Java Full Stack Developer — EduSkills **[Certificate]**
- Machine Learning — Kodbud (AICTE Approved) **[Certificate]**
- Python Essentials 1 & 2 — Cisco Networking Academy **[Certificate]**
- Data Structures and Algorithms — Infosys Springboard **[Certificate]**
- Java — Infosys Springboard **[Certificate]**

Achievements:

- Solved **200+** algorithmic DSA problems on LeetCode covering all difficulty levels, maintaining a **90%** acceptance rate.
- **Organizing Committee Member for HACKWAR 2K26** — managed expert talks and logistics at Anurag University.
- Participated in the **AVINYA 2K25** innovation hackathon **[Certificate]**.
